PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 16th April 1955

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

31st March 1955

- 54181. G. Rösch. A method and apparatus for the permanent waving and curling of hair.
- 54182. Anstalt für die Entwicklung von Erfindungen und gewerblichen Anwendungen ENERGA. Artillery equipment.
- 54183. J. Dungler. Enclosure for treating web material such as textile fabrics and the like.
- 54184. Etablissement Public dit: REGIE INDUSTRIELLE DE LA CELLULOSE COLONIALE. Improvements in or relating to processes for bleaching vegetable materials.
- 54185. J. R. Geigy A.-G. Process for the production of diammonium compounds.
- 54186. Harry Ferguson Research Limited. Improvements relating to the transmission mechanism of motor vehicles. (9th April 1954).
- 54187. Harry Ferguson Research Limited. Improvements in and relating to power-driven wheel-and-axle assemblies of motor vehicles. (13th April 1954).
- 54188. Ciba Limited. Manufacture of certain esters or amides containing quaternary ammonium groups. [Divisional date, October 27, 1954].
- 54189. Carlen Corporation. Improvements in or relating to germicide.
- 54190. C. Barth. Improvements in or relating to kerosine oil stoves.

1st April 1955

- 54191. Bishnu Charan Banerjee and Gopal Chandra Kar. Composition containing hormone for use as foodstuff.
- 54192. D. Napier & Son Limited. Improvements in or relating to torque responsive devices. (26th April 1954).
- 54193. W. W. Spooner. Improvements in and relating to the rendering or melling of material.
- 54194. M. G. DePenning (legal representative of V. E. DePenning deceased). Method of making a twistless yarn or strand. [Divisional date June 18, 1954].
- 54195. M. G. DePenning (legal representative of V. E. De Penning deceased). Method of making a twistless yarn or strand. [Divisional date, June 18, 1954.]
- 54196. Reconstruction Supplies Limited. Improved locking means for doors of autoclaves and the like. (2nd April 1954).
- 54197. Time, Incorporated. Process for development of printing plate and agent therefor.
- 54198. Boots Pure Drug Company Limited. New anthelmintic compositions. (2nd April 1954).

2nd April 1955

- 54199. American Cyanamid Company. Improvements relating to the production of tetracycline. (15th February 1955).

4th April 1955

- 54200. Mrs. Johanna Zakarias and Dr. Laszlo Zakarias. Means for repeated slowing down of motive power and for the relaxation of the moveable device. (6th April 1954).
- 54201. St. Anne's Board Mill Company Limited. Improved apparatus for de-watering pulp or stock on a fourdrinier type paper or board making machine. (6th April 1954).
- 54202. "Shell" Research Limited. Improvements in or relating to pesticidal compositions. (5th April 1954).
- 54203. Union Francaise Commerciale Et Industrielle. Improvements in extraction processes. (13th April 1954).
- 54204. Power Jets (Research and Development) Limited. Improvements in or relating to aircraft.

5th April 1955

- 54205. Orient General Industries Ltd. Improvements in or relating to oscillating fan mechanism.
- 54206. V. C. Patel. Overhead loading machine.
- 54207. Taoka Dyestuff Manufacturing Company Limited and S. Taoka. Production of acetaldehyde from acetylene.
- 54208. G. V. Mohan. An automatic device for collecting and distributing files in offices.
- 54209. J. R. Geigy A.-G. Process for the production of substituted 1,2-diphenyl-3,5-dioxo-pyrazolidines.
- 54210. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubilising artificial filaments, threads, fibres and the like obtained by the spinning of solutions of proteins.
- 54211. Imperial Chemical Industries Limited. New and improved explosive compositions. (10th May 1954).
- 54212. H. Weslake. Improvements in or relating to inlet passages for internal combustion engines.
- 54213. Ciba Limited. Process for the manufacture of emulsions of hardenable artificial resins and emulsions so obtained.
- 54214. Belliss & Morcom Limited. Pistons. (6th April 1954).
- 54215. P. A. I. Cuvelier. Pump for liquids and slops driven by compressed fluid.
- 54216. Ciba Limited. Manufacture of new oxy-amino-carboxylic acids and derivatives thereof.

6th April 1955

- 54217. Kiron Ananda Mitter. Internal combustion power generator.
- 54218. S. Freres. Valves.
- 54219. General Aniline & Film Corporation. Improvements in or relating to phthalocyanine lakes.

54220. Ciba Limited. Ganglionic blockers and processes for their manufacture.
54221. Badische Anilin- & Soda-Fabrik Aktiengesellschaft. Improvements in the treatment of hydrocarbons in the presence of hydrogen.
54222. J. L. McDonald. An improved sanitary closet. (22nd April 1954).

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patent and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8 Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawing, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

49835. The Jay Engineering Works Ltd. Regulators for A.C. fans. Accepted on 1st April 1955.
Number of turns of copper is fixed but the reluctance of magnetic circuit is variable.
49883. E. Bobkowicz. Yarn production. Accepted on 5th April 1955.
Bonding the staple fibers together by a thermoplastic and/or thermosetting bonding agent prior to spinning.
49885. E. Bobkowicz. Textile fabric. Accepted on 5th April 1955.
The warp and weft yarns being welded together at contact points by heat activated bonding agent.
50374. Bohme Fettchemie G.m.b.H. Prescouring and bleaching of textile fibres. Accepted on 31st March 1955.
Subjecting the material to a pre-treatment with bacteria or enzymes decomposing pectin.
50376. Maskin Aktiebolaget Plavia. A process and an apparatus for separating solids from suspensions of solids in fluids. Accepted on 31st March 1955.
Causing the suspension of flow in a tangential direction to a curved perforate wall and giving the suspension a continuously deflecting movement.
50399. Ludlow Manufacturing & Sales Co. Improvements in or relating to the production of jute yarns, and woven fabrics and carpets made therefrom. Accepted on 5th April 1955.
Treating jute fibers by applying water thereto and also applying about 4 per cent to 9 per cent of an oil composition made up of a petroleum oil and a drying material dissolved therein and forming yarn from fibers thus treated.
50417. Dr. Moti Lal Jain. Improved connector between an inflater (air pump) and article to be inflated. Accepted on 6th April 1955.
Consisting of a threaded tube, a body, a cap and a piece with a hole made of elastic material.
50445. S. S. Shrivastava. Improvements in or relating to a system to produce illusion of depth in the pictures obtained by photography and television. [Addition to No. 50444]. Accepted on 5th April 1955.
Concave or convex spherical mirror is used before photographic or television camera in such manner that the entire depth of field produced by said mirror in the form of image field is coincided by the depth of field of camera lens.
50450. F. E. Myard. Improvements in or relating to pumps for liquids. (1st September 1953). Accepted on 4th April 1955.
Comprising a double-acting piston which operates simultaneously with a continuous rotary movement and a translatory straight line reciprocating movement.
50608. Monsanto Chemical Company. Polystyrene molding compositions. Accepted on 31st March 1955.
Comprising 100 parts of polystyrene, 1—20 parts of copolymer of 50 per cent butadiene and styrene and 0.8 to 1 parts of organic ester of phosphoric acid.
50645. Societe D'Etudes, De Recherches Et D'Applications Mecaniques. Ignition device for rocket motors. Accepted on 1st April 1955.
Ignition device constituted by flat metal box at the front end of rocket motor rear part of the box bearing on front face of block of propelling charge and having apertures of flash holes.
51625. Council of Scientific and Industrial Research. A process for the concentration of manganese ores high in iron. Accepted on 31st March 1955.
Separating manganese minerals from fully magnetic minerals by magnetic separators and desliming the ore prior to magnetic separation.
51639. Inflico Incorporated. Improvements in or relating to apparatus for treating liquid. Accepted on 4th April 1955.
Apparatus consists of a chamber in a sedimentation tank with means to introduce thickened sludge in the chamber from the tank.
51694. British Celanese Limited. Improvements in the production of artificial fibres. (24th April 1953). Accepted on 31st March 1955.
Fusible filament-forming material is pressed against a heated plate having orifices and the filaments coming out of said orifices are collected.
51894. N. V. Bronswerk. Improvements in air conditioning by means of supersaturated air. Accepted on 5th April 1955.
Air is cooled before supersaturation in such a manner that its heat content is decreased.
52045. Imperial Chemical Industries Limited. Improvements in or relating to titanium base alloys. (8th June 1953). Accepted on 4th April 1955.
A titanium base alloys consisting of 0.5—22 per cent tin, 0.5—10 per cent aluminium, balance titanium apart from impurities.
52086. Norsk Hydro-Elektrisk Kvælstofaktieselskab Filter cell. Accepted on 4th April 1955.
Having a drum with a wire coil on it and a filter cloth stretched over the wire coil.
52363. Simon-Carves Limited. Improvements relating to the processing of coal and other carbonaceous materials. (27th July 1953). Accepted on 6th April 1955.
Treating the mineral in finely ground form with a gaseous chlorinating agent between 200—600°C.
52509. Ciba Limited. New monoazo-dyestuffs and process of making same. Accepted on 4th April 1955.
Aminonaphthalene sulfonic acid is coupled in an acid medium with a diazo-compound of an amine.
52599. Ciba Limited. New diazoamino-compounds and process for making them. Accepted on 4th April 1955.
1-amino-benzene-2-carboxylic acid-4-sulfonic acid is condensed with a diazo-compound of an amine.
52600. Ciba Limited. New diazoamino-compounds and process for making them. Accepted on 4th April 1955.
Condensing a dicarboxylic acid with a diazo compound suitable for the production of ice colors.
52601. Ciba Limited. Process for the manufacture of diazoamino-compounds in dry form. Accepted on 4th April 1955.
A solvent-containing mixture which contains in addition to a diazoamino-compound a free diazo-compound and a free amine is subject to rapid drying.
52759. Gestetner Limited. Improvements in or relating to offset rotary printing machines. (4th August 1954). Accepted on 6th April 1955.
Comprises a blanket cylinder, impression cylinders, ink and water supply and control system.

52856. C. S. R. Wotton. Electrical cautery for surgical and other uses. (5th October 1953). Accepted on 5th April 1955.

Comprising a knife member formed with a blade portion and a hollow shank portion and an electrical heating means adopted to be positioned in the hollow of the shank.

52957. Standard Telephones and Cables Limited. Improvements in or relating to synchronising arrangements in electric telegraph systems. (3rd November 1953). Accepted on 5th April 1955.

Comprises means controlled by oscillator for regenerating received signals, means for deriving from the received and the regenerated signals.

52967. British Insulated Callender's Cables Limited. Improved means for supporting an overhead electric traction conductor. (23rd February 1954). Accepted on 6th April 1955.

Of the type comprising a clip part and a loop part.

52968. British Insulated Callender's Cables Limited. Improved means for supporting an overhead electric traction conductor. (6th July 1954). [Addition to No. 52967]. Accepted on 6th April 1955.

Of the type comprising a clip part and a loop part.

53112. The Singer Manufacturing Company. Stitch-length indicator for sewing machines. Accepted on 6th April 1955.

Providing an operating lever movable in a slotted gate having locking means engageable with gate to retain the lever in any selected setting.

53325. American Steel Foundries. Improvements in automatic couplers for railway cars. Accepted on 31st March 1955.

One arm of the knuckle thrower moves the knuckle while the other arm is engaged in a guide slot formed in a wall of the head.

53472. Daimler-Benz Aktiengesellschaft. Improvements relating to motor vehicle axle suspensions. (11th November 1954). Accepted on 4th April 1955.

Common pivot for two half axles suspended by bearing bracket below body of the vehicle and the axle gear case forms a part of one of the two half axles.

53495. Internationella Siporex Aktiebolaget. Arrangement in roof and floor structures comprising lightweight concrete slabs. Accepted on 31st March 1955.

Joints between slabs are sheet metal strips with vertical flaps projecting on both sides which are driven from the top to penetrate into slabs.

53512. Clifford Aero & Auto Limited. Driving mechanism for rotary cultivator tines. Accepted on 6th April 1955.

Driving mechanism for the rotary tines includes a torsionally resilient shaft.

53600. Douglas Fraser & Sons Limited. Improvements in or relating to carding machines. (23rd January 1954). Accepted on 31st March 1955.

Using a floating blade urged towards the drawing roller and adapted to rest against at least one abutment located intermediate the ends of the blade and adjacent to the drawing roller.

53601. Douglas Fraser & Sons Limited. Improvements in or relating to carding machines. (23rd January 1954). Accepted on 31st March 1955.

Providing a deflector plate below the doffer roller extending in an inclined downwardly direction towards the discharge end of the machine.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street Calcutta, at two rupees per copy:—

48208. 48251. 48460. 48501. 48685. 49038. 49180. 49612. 49692. 49708. 49750. 49758. 49763. 49940. 49965. 49992. 50309. 50406. 50436. 50614. 50788. 50862. 50886. 50929. 51031. 51058. 51090. 51119. 51141. 51203. 51350.

Patents Sealed

49492. 49573. 49575. 49909. 50086. 50631. 50733. 51230. 51463. 51603. 51733. 51753. 51765. 51826. 51860. 52256. 52302. 52404.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of patent No. 42204. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of patent No. 42205. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(3)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of patent No. 42206. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(4)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of patent No. 42207. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(5)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of patent No. 43408. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may

be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(6)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 43673. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(7)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 44064. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(8)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 44474. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(9)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 45719. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(10)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 47036. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may

be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(11)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that American Cyanamid Company, a corporation organized and existing under the Laws of the State of Maine, United States of America, having a place of business at 30 Rockefeller Plaza, New York, New York, United States of America, Manufacturers, seek leave to amend the description and claims in the specification in respect of Patent No. 47621. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Extension of the Term of Patent

Notice is hereby given that a petition under Section 15 of the Indian Patents and Designs Act, 1911, for the extension of the term of Patent No. 22197 for "Improvements in apparatus for amplifying electrical variations" has been left at the Patent Office on behalf of Messrs. Electric and Musical Industries Ltd., of England. The petition may be inspected at the Patent Office, 214 Lower Circular Road, Calcutta 17. Any person desirous of opposing the grant of extension of the term of this patent shall within two months from the date of this notification lodge with the Controller of Patents and Designs at the above address, a notice on Form 6 of the Indian Patents and Designs Rules, 1933 and shall at the same time serve a copy of such notice upon the petitioners C/o Messrs. Remfray & Son, Stephen House, Dalhousie Square, Calcutta.
